E. Limitations Affecting Payment

CONTRACTOR shall perform services and provide such documentation as required by all applicable state and federal laws, rules, and regulations, and as described in Exhibit "A", Scope of Work. Other limitations affecting contract payments may include, but are not limited to:

- 1) CONTRACTOR shall provide documentation supporting its services and claims as required by COUNTY at any time in order for COUNTY to substantiate its claims for payment. CONTRACTOR shall provide required documentation irrespective of whether payment for such claims has already been made.
- 2) COUNTY may elect to immediately suspend, in whole or in part, payments to CONTRACTOR for failure by CONTRACTOR to provide documentation required by COUNTY. If CONTRACTOR fails to provide required documentation within a reasonable timeframe of the request, COUNTY may deny payment on such claims. In addition, if CONTRACTOR fails to provide documentation within a reasonable timeframe and such delay precludes COUNTY from claiming to state and federal funding sources, COUNTY shall deny payment on such claims. CONTRACTOR and COUNTY understand that reasonable timeframe is not defined by state and federal claiming deadlines.
- 3) CONTRACTOR shall substantiate its claims for payment by providing documentation evidencing that, at minimum, its services and claims meet all applicable state and federal funding requirements. CONTRACTOR understands that state and federal funding may be used, in whole or in part, to pay CONTRACTOR; for purposes of substantiating its claims for payment, CONTRACTOR assumes that state and federal funding is used in whole. If CONTRACTOR fails to substantiate its claims within a reasonable timeframe, COUNTY may deny payment on such claims. In addition, if CONTRACTOR fails to substantiate its claims within a reasonable timeframe and such delay precludes COUNTY from claiming to state and federal funding sources, COUNTY shall deny payment on such claims. CONTRACTOR and

COUNTY understand that reasonable timeframe is not defined by state and federal claiming deadlines.

- 4) Failure of CONTRACTOR to comply with the provisions of this Paragraph E, or with all applicable state and federal laws, rules, regulations and funding requirements, may result in immediate suspension and/or denial of all payments.
- 5) CONTRACTOR's services, documentation, and claims are subject to audits conducted by COUNTY, the State of California, Federal Government, or other auditors. CONTRACTOR shall maintain and provide required documentation (including, but not limited to, accounting and program records, service delivery records, and all substantiating source material) related to staff time and program expenditures charged to the funding source) upon request. Such request may be made of CONTRACTOR up to seven years after payments for services have been made, or longer if otherwise required by state and federal laws, rules and regulations. If the audit is retrospective and payments for services have already been made, any resulting audit exemptions, disallowances, recoupment, and lost revenues shall be repaid to COUNTY.
- 6) CONTRACTOR shall make COUNTY whole for audit exemptions, disallowances, recoupment, and lost revenues discovered through any of the audits under this Paragraph E, including, but not limited to, CONTRACTOR's errors or omissions.
- 7) To the extent CONTRACTOR shall make COUNTY whole under this Paragraph E, for audit exemptions, disallowances, recoupment, and lost revenues, COUNTY may offset against amounts otherwise owed to CONTRACTOR for payments for past services, offset against payments for future services for which CONTRACTOR provides, or demand immediate repayment without offset.
- 8) CONTRACTOR shall generate any corrective action plans, performance improvement plans, or other related plans, required by COUNTY, the State of California, Federal Government, or other auditors, in order to assure that all relevant state and federal funding requirements are satisfied.
- 9) CONTRACTOR shall pay any penalty or fine assessed against COUNTY arising from CONTRACTOR's failure to comply with all

applicable state and federal program requirements including, but not limited to, any penalties or fines, which may be assessed under a federal or state False Claims Act provision or a False Statements.

F. Deobligation and Probation

COUNTY shall have the right to adopt and implement a fund deobligation process which may shift funds away from CONTRACTOR if COUNTY determines CONTRACTOR is underutilizing available funds, failing to meet performance expectations, or is failing to achieve service levels as established in Exhibit "A", Scope of Work.

G. Defective Pricing

If any cost or price under this Agreement is significantly increased or decreased as a result of defective data submitted by CONTRACTOR, COUNTY reserves the right to renegotiate the Agreement or to disallow and collect funds obtained by CONTRACTOR due to false or negligently submitted pricing data.

2. DELIVERY OF SERVICES.

CONTRACTOR agrees to deliver the quality and quantity of services as specified in Exhibit "A", Scope of Work. Any deviation from the Scope of Work shall be approved in writing by COUNTY. The following categories should be used:

- * Personnel Costs
- * Participant Costs
- * Equipment
- * Contractual Services
- * Infrastructure/Operating Costs
- * Indirect Costs
- * Other Costs

Budget Category Definitions and Instructions for Budget Worksheet and Narrative

Instructions below detail definitions for each budget category and instructions for the Budget Detail Worksheet and Narratives.

1. Personnel Costs.

Personnel Costs Budget Detail Worksheet: Staff salaries and associated fringe benefits necessary for direct service delivery. This category does not include subcontracted professional services or staffing. These costs should be allocated to the contractual services category and detailed/described in the line item for each cost. While staff performing administrative functions is allowable, positions that are fiscal, managerial or administrative in nature should be allocated to the indirect costs or infrastructure/operating costs category (see below). Please note positions related to fundraising are not allowable under WIA. Staff dedicated to client tracking/reporting can either be directly included in the personnel category or allocated to the indirect or operating/infrastructure categories below.

Personnel Costs Budget Narrative: List each individual position by title, percentage (%) of full time equivalent (FTE) or anticipated amount of time to be charged to this program x the annual salary x fringe = total.

2. Participant Costs.

Participants Costs Budget Detail Worksheet: Costs directly related to individual participants such as subsidized wages, supportive services (e.g. bus passes, childcare), participant payments (e.g. stipends, incentives), participant supplies (e.g. items/equipment consumable by participants or which become their personal property), tools or clothing related to employment or training, and participant tuition and fees incurred to achieve program objectives.

Participant Costs Budget Narrative: List each type of item with a unit cost x number of units = total. Number of units should be related to the number of individuals that will receive the item.

3. Equipment.

Equipment Costs Budget Detail Worksheet: Non-consumable, depreciable equipment necessary for the in the program. Examples are: computers, printers, fax machines, and office furniture. Equipment leases should also be listed here.

Equipment Budget Narrative: For each type of equipment to be purchased, list the number of items and the unit cost for each item. Please note that any item with a unit cost of \$1000 or more will require prior written approval by the NLWIB.

4. Contractual Services.

Contractual Services Costs Budget Detail Worksheet: Costs related to services contracted to an outside organization or company necessary and related to direct service to clients. Costs related to the purchase of goods or services from a general supplier, vendor transactions or part of general operating costs should not be included in this category and instead should be listed under Infrastructure/Operating costs category.

Contractual Services Budget Narrative: Any sub-contractors should also be included in the proposal narrative along with their responsibility and role. Detail name of contractor x the cost = total.

5. Infrastructure/Operating Costs Detail.

Infrastructure/Operating Costs Detail: General costs to run the program, including building rental, facilities maintenance, utilities, phones, general consumable materials and supplies, Internet, staff travel and training, insurance, audits, etc., and other costs related to supporting and maintaining organizational infrastructure. Professional services purchased from vendors (as opposed to subcontractors) are included in this category. Costs related to technology needed to fulfill requirements can be included as part of your budget and will be reviewed for cost effectiveness and reasonableness.

Infrastructure/Operating Costs Budget Narrative: As applicable, for each item list the number of items x the unit cost for each item = total. An alternate method of calculation, such as cost per unit of item (e.g. month or annual cost) or per staff would also be acceptable.

6. Indirect Costs.

Indirect Costs Budget Detail Worksheet: If used this rate should include audit, payroll and other costs of program support such as general costs that cannot be directly identified as a cost to any specific program, but are equitably allocated to all the programs that the organization operates and therefore should not also be listed in Infrastructure /Operating Costs Category. Note: This category may only be used by organizations with an Indirect Cost Rate approved by an authorized federal or state agency. A copy of the Indirect Cost Rate Proposal approved by the cognizant federal agency must be attached.

YOUTH EMPLOYMENT AND TRAINING PROGRAM

This RFP is for the design, development and administration of a youth service system. This system will provide programs that assist youth to become life-long learners with the necessary skills to prepare youth to make a successful transition to adulthood, to obtain long-term academic and employment success and to provide a means to develop the potential of youth as citizens, employees and leaders in the community. This youth program will assist at-risk youth ages 14-21 in achieving major educational attainment, skills development and/or employment through a focus on intensive year round programming; an emphasis on long-term outcomes; the delivery of the ten required program elements; and increased connections to employer and labor market information.

- 2) **Intake Screening:** Under the WIA legislation, all youth must meet eligibility criteria as defined in the “Target Population” section of this RFP. Providers will screen applicants for suitability for program participation.
- 3) **Eligibility:** Certification of eligibility for any WIA-funded programs will be the sole responsibility of Napa WIA Staff. Napa WIA Staff will conduct eligibility interviews prior to enrollment. Certification includes income determination. The Napa WIA Staff will provide final approval of WIA eligibility before any services are provided to youth participants. This includes a review of educational skill levels, occupational skills, prior work experience, employability, interests, aptitudes, and supportive service needs. Where appropriate, recent assessments can be used in lieu of additional assessment. The goal is to accurately evaluate the youth in order to develop an appropriate service strategy to meet his/her individual needs.

WIA youth must be tested for basic skills within 30 days of the enrollment date or provide documentation that testing occurred no more than six months prior to enrollment; and pre-test for Literacy and Numeracy skill level no later than 60 days after the youth’s initial enrollment date.

6) **Individual Service Strategy (ISS):** An individualized, written plan of long and short-term goals to address each WIA participant's unique needs and barriers as identified in the objective assessment (that includes needed educational, employment related and personal support services) must be developed and maintained for each participant. The plan should specify a delivery method to meet those needs or overcome the barriers identified. The level of services needed by a participant will determine the program elements to be included in the ISS. The plan should be used to track services to be delivered and/or coordinated by the program and should be regularly reviewed and updated as changes occur.

7) **Referral to Services:** Providers are strongly encouraged to link and share information with other youth-serving agencies, organizations and training providers in order to meet the individual needs of all youth.

8) **Coordination with One-Stop System:** The One-Stop system provides workforce development services to adults. NLWIB youth Providers will be expected to engage in partnerships to provide resources and services to youth. Specifically, programs should provide for a seamless transition to the One-Stop system.

9) **Academic Requirements:** The target population to be served includes youth who has low basic skills, defined as below 8th grade level. All programs must provide academic services to assist in skill gains for basic skills deficient youth. Assessment instruments must be utilized to show skill level gains. Providers shall create meaningful employer connections that will result in placements in employment or continuing education as well as exposure to the world of work with resultant measurable skill increases.

Career development experiences should demonstrate meaningful employer involvement. These may be described as structured, supervised, contextual world-of-work experiences, with documented learning outcomes. Work-based learning experiences are those that take place in the context of actual work environments, link to learning outcomes, are developed with employer input, align with industry-specific skill standards and competencies, and are based upon labor market information.

Employment-related activities can include subsidized or unsubsidized work experiences; internships; job shadows; exposure to various aspects of industry; job search assistance, placement and retention; project-based learning; career mentoring; service learning; occupational skill training; and employment opportunities directly linked to academic and/or occupational goals.

11) **Best Practices:** National research identifies the following elements of effective practice and the Provider is encouraged to exemplify the following principles in the delivery of services to youth: relationships that maintain continuity of contact with caring adults; strong connections to employers; a variety of contextual educational options for skill/competency gains or academic learning through practical application; opportunities for leadership and decision-making; positive peer support; opportunities for post-secondary education; opportunities for meaningful service to others; and follow-up support over a sustained period. In addition, the Youth Council will continuously research, analyze and possibly adopt new best practices throughout the contract period. It is expected that the selected Provider will work very closely with the NLWIB/Youth Council in the implementation of such practices.

5. **Performance Outcomes:** The selected service provider will be expected to meet the **WIA Youth Performance Measures for WIA youth**. WIA measures are fully explained below. These performance measures are subject to change based on guidance received from the California Employment Development Department.
